FRAMES

Roberti uses high quality materials, perfectly combined each other in order to offer original, valuable and long lasting outdoor furniture.

ALUMINUM

FIBREGLASS

STAINLESS STEEL AISI 304

STAINLESS STEEL AISI 316L

FINISHINGS

All the finishings are made with powder coatings, this treatment ensures an exceptional resistance to corrosion in the outdoor use and at the same time is respectful of the environment as polluting volatile solvents are not spread in the atmosphere (as it happens in case of liquid varnishes)

FABRICS

Roberti offers a large selection of fabrics for outdoor use. The acrylic (PC) fabrics are from Sunbrella, polypropilene and polyester fabrics are all Made in Italy. All our fabrics are UV resistant, if wet they dry very quickly and do not shrink.

PADDINGS

The paddings are made with different materials like polyurethane and polyester. All the outdoor paddings are covered by a polyester and pvc waterproof liner. This liner is sealed and thermowelded to ensure that the water does not enter. At the bottom of the liner there is a polypropylene net that allows the interior ventilation of the cushion to avoid mold stains.

COVERS

For an additional protection of the furniture we suggest the pvc and polyester covers. These covers protect from weatherings as well as from dust and atmospheric impurities allowing a longer durability to the furniture.
