DA
Ready for anything

Characterized by a wide, comfortable and cosy seat, a rigorous and clean design with square lines softened by back cushions. Ora is a work of art. The same excellence of its finishing, materials and forms has been applied to the extendable bed characterised by a structure in electro-welded steel and double folded spring mattress respectful of sleeping ergonomics. Ora is always ready to be used, it is light and easy to unfold without removing the seat and back cushions. Its padding in polyurethane foam with different density can be covered in a great deal of removable and washable fabrics.
