

SERIP

Aqua Dome Medium

REFERENCE CT3345/1

DESCRIPTION

Inspired by Winter water drops. The Aqua Collection is an iconic set of the Serip family, both by its element of inspiration and by its inherent association with our identity, expressing a strong connection to our main inspiration source, nature. The bronze structure expands in entangled branches that lead to floating glass pieces, a characteristic that concedes an airy touch together with its delicate and elegant look, concepts visible in the smallest detail of the glass drops. Through several chromatic choices and design options, the Aqua Collection presents itself as an exquisite nature-inspired piece, perfect for any concept.

Finish shown here Metal FO | Glass 10

Designed and produced by hand in Portugal.

Serip reserves the right to make changes or improvements at any time it deems useful to guarantee the highest quality standards for its products.

Hand-finished, some variations may occur.

All the glass models are designed by Serip and exclusively handmade produced, establishing a unique and prestigious feature of the glass handwork art. For this reason, there is the possibility of variation in measures, weight, colour and shape represented.

CARE INSTRUCTIONS

Due to the nature of our exquisite hand applied finishes, wipe clean with a soft, dry cloth or static duster must be used to clean the fixture.

Always avoid the use of harsh chemicals or abrasive cleaners as they may cause damage to the fixture's finish.

Cleaning is limited to the outer surfaces, shades or glass. It is important to ensure that no moisture enters the terminal compartment or reaches any live parts.

As our products are subject to technical modifications, we cannot guarantee, that all information is always up to date. Please contact our [technical department](#) with any queries.

CARE INSTRUCTIONS

Due to the nature of our exquisite hand applied finishes, wipe clean with a soft, dry cloth or static duster must be used to clean the fixture.

Always avoid the use of harsh chemicals or abrasive cleaners as they may cause damage to the fixture's finish.

Cleaning is limited to the outer surfaces, shades or glass. It is important to ensure that no moisture enters the terminal compartment or reaches any live parts.

As our products are subject to technical modifications, we cannot guarantee, that all information is always up to date. Please contact our [technical department](#) with any queries.

Aqua Funnel Medium

REFERENCE CT3272/19

DESCRIPTION

Inspired by Winter water drops. The Aqua Collection is an iconic set of the Serip family, both by its element of inspiration and by its inherent association with our identity, expressing a strong connection to our main inspiration source, nature. The bronze structure expands in entangled branches that lead to floating glass pieces, a characteristic that concedes an airy touch together with its delicate and elegant look, concepts visible in the smallest detail of the glass drops. Through several chromatic choices and design options, the Aqua Collection presents itself as an exquisite nature-inspired piece, perfect for any concept.

Finish shown here Metal FP | Glass 10

Designed and produced by hand in Portugal.

Serip reserves the right to make changes or improvements at any time it deems useful to guarantee the highest quality standards for its products.

Hand-finished, some variations may occur.

All the glass models are designed by Serip and exclusively handmade produced, establishing a unique and prestigious feature of the glass handwork art. For this reason, there is the possibility of variation in measures, weight, colour and shape represented.

Max Power Consumption 1500W
Light Sources
30 x GU10 Max 50W

CARE INSTRUCTIONS

Due to the nature of our exquisite hand applied finishes, wipe clean with a soft, dry cloth or static duster must be used to clean the fixture.

Always avoid the use of harsh chemicals or abrasive cleaners as they may cause damage to the fixture's finish.

Cleaning is limited to the outer surfaces, shades or glass. It is important to ensure that no moisture enters the terminal compartment or reaches any live parts.

As our products are subject to technical modifications, we cannot guarantee, that all information is always up to date. Please contact our [technical department](#) with any queries.

SERIP

SERIP

Aqua Curtain Small

REFERENCE CT3291/5

DESCRIPTION

Inspired by Winter water drops. The Aqua Collection is an iconic set of the Serip family, both by its element of inspiration and by its inherent association with our identity, expressing a strong connection to our main inspiration source, nature. The bronze structure expands in entangled branches that lead to floating glass pieces, a characteristic that concedes an airy touch together with its delicate and elegant look, concepts visible in the smallest detail of the glass drops. Through several chromatic choices and design options, the Aqua Collection presents itself as an exquisite nature-inspired piece, perfect for any concept.

Finish shown here Metal FO/PB | Glass 10

Designed and produced by hand in Portugal.

Serip reserves the right to make changes or improvements at any time it deems useful to guarantee the highest quality standards for its products.

Hand-finished, some variations may occur.

All the glass models are designed by Serip and exclusively handmade produced, establishing a unique and prestigious feature of the glass handwork art. For this reason, there is the possibility of variation in measures, weight, colour and shape represented.
