DAS2920, DAS2920 EXTA, DAS4920, Installation drawings

1) The front section of the wall unit must be fitted with a base panel to secure the cooker hood. If the appliance is fitted further back, e.g. to accommodate a front panel, then the shelf depth should be deeper accordingly, .2) If a partition wall is to be provided in the unit, it must be removable., 3) Extraction, recirculation with conversion kit DUU 150., .* In this installation situation, the deflector plate is flush with the front edge of the housing unit carcase. , If you wish to position the cooker hood further forward or further back (e.g. because it has a front panel), dimensions have to be adapted accordingly., , Extraction: the height of the wall unit and the cut-out dimensions must take into account any accessories fitted, e.g. silencer, recirculation hood conversion kit).
