### ACRYLIC FABRICS

#### Tessuti Tempotest\*

**Antimacchia** | Il particolare fissaggio di Tempotest\* Home favorisce l'eliminazione delle macchie. Mantiene il colore e la resistenza | La fibra in acrilico 100% tinta in massa resiste alla scoloritura dovuta al sole, all'acqua e a tutti gli agenti atmosferici in generale.  
**Imputrescibile** | Adatto anche per ambienti ad alta umidità come bagni e verande coperte, non permette la formazione di muffa. Adatto per l'arredamento di esterni e di interni (zona living, camera dei bambini, cucina).  
**Manutenzione e pulizia** | Molte macchie sui tessuti Tempotest\* Home possono essere tolte con una semplice soluzione di acqua e sapone. Rimuovere semplicemente spazzolando via lo sporco; pulire con acqua (non più di 40°C) e sapone naturale. Risciacquare accuratamente per rimuovere il sapone. È possibile lavare gli sfoderabili a secco o in lavatrice con acqua fredda, ma senza centrifugare. Nel tempo, per ripristinare la naturale perdita di idro-oleorepellenza, è consigliabile l'uso dello spray T202 che è possibile richiedere al proprio rivenditore. Non stirare il tessuto con il vapore e non farlo asciugare in apparecchi elettrici. Lasciate asciugare il tessuto all'aria. Durante la stagione invernale riporre il tessuto in ambiente asciutto e ventilato. **Garanzia** | I tessuti della Collezione Tempotest\* Home sono coperti da garanzia per un periodo di 3 anni. Tale garanzia copre esclusivamente la perdita di colore dovuta alla normale esposizione all'azione del sole, della salsedine e degli agenti atmosferici in generale. La garanzia non copre i danni derivanti da cause di forza maggiore, azioni meccaniche o atti dolosi.

#### Tessuti Sunbrella\*

After a shower of rain, allow your cushions to dry so as to protect them from mold stains. We recommend storing your cushions for the winter or when not in use for long periods. Before storing, make sure they are fully dry.
