

SERIP

Niagara Whirlpool Small

REFERENCE CT3386/5

DESCRIPTION

Inspired by the Niagara falls magnificence, this collection embraces the tenacious and raw side of nature, with a very close visual density of its inspirational waterfall through the glass pieces. The solid glass presence represents the untamed motion of water shaped, completed with organic patterns in a game of transparency and opacity, a characteristic that counteracts inertia and enhances movement. The metal structure follows the main concept with vines in a never ending fluid motion. Ideal for horizontal displays of contemporary style interiors.

Finish shown here Metal FO | Glass 10

Designed and produced by hand in Portugal.

Serip reserves the right to make changes or improvements at any time it deems useful to guarantee the highest quality standards for its products.

Hand-finished, some variations may occur.

All the glass models are designed by Serip and exclusively handmade produced, establishing a unique and prestigious feature of the glass handwork art. For this reason, there is the possibility of variation in measures, weight, colour and shape represented.

CARE INSTRUCTIONS

Due to the nature of our exquisite hand applied finishes, wipe clean with a soft, dry cloth or static duster must be used to clean the fixture.

Always avoid the use of harsh chemicals or abrasive cleaners as they may cause damage to the fixture's finish.

Cleaning is limited to the outer surfaces, shades or glass. It is important to ensure that no moisture enters the terminal compartment or reaches any live parts.

As our products are subject to technical modifications, we cannot guarantee, that all information is always up to date. Please contact our [technical department](#) with any queries.

Talha (TA)

Note The canopy has only the base finish colour. The metal finish is without patina or texture of another tone. Except for Talha and Black finishes.

SERIP

SERIP

Niagara Falls

REFERENCE CT3366/19

DESCRIPTION

Inspired by the Niagara falls magnificence, this collection embraces the tenacious and raw side of nature, with a very close visual density of its inspirational waterfall through the glass pieces. The solid glass presence represents the untamed motion of water shaped, completed with organic patterns in a game of transparency and opacity, a characteristic that counteracts inertia and enhances movement. The metal structure follows the main concept with vines in a never ending fluid motion. Ideal for horizontal displays of contemporary style interiors.

Finish shown here Metal FO | Glass 10

Designed and produced by hand in Portugal.

Serip reserves the right to make changes or improvements at any time it deems useful to guarantee the highest quality standards for its products.

Hand-finished, some variations may occur.

All the glass models are designed by Serip and exclusively handmade produced, establishing a unique and prestigious feature of the glass handwork art. For this reason, there is the possibility of variation in measures, weight, colour and shape represented.

CARE INSTRUCTIONS

Due to the nature of our exquisite hand applied finishes, wipe clean with a soft, dry cloth or static duster must be used to clean the fixture.

Always avoid the use of harsh chemicals or abrasive cleaners as they may cause damage to the fixture's finish.

Cleaning is limited to the outer surfaces, shades or glass. It is important to ensure that no moisture enters the terminal compartment or reaches any live parts.

As our products are subject to technical modifications, we cannot guarantee, that all information is always up to date. Please contact our [technical department](#) with any queries.
