## DESCRIPTION

Flexible painted steel structure, covered with a natural anti-yellowing silicone case; ceiling rose and diffuser in transparent rubber-effect painted polycarbonate; mirror aluminium reflector with random perforations; painted steel bottom plate. The new internal diffuser is reinterpreting the old fluorescent lamp using a modern LED source, this guarantees the same optical performance with less power consumption and a better quality of light.

In the WHITE INTEGRALIS version, Pipe is designed to offer a white emission ensuring perfect perception while respecting the human presence and which at the same time combines control of microbial growth. It can vary in intensity and is available with a fixed CCT of 5000K, with a high color rendering index (CRI 90).
