

Stellar Nebula - L

BIG - Bjarke Ingels Group

LUMINAIRE

- Watt: **24W**

DESCRIPTION

Stellar Nebula is a family of suspension lamps designed by BIG to interpret and enhance artisan glass blowing with innovative finishing techniques.

Values, roles and limits of industrial and artisanal production are the core of this project idea, which aims to find a solution of industrial uniqueness.

Three different sizes of blowing moulds generate pieces that are always unique. The glass that is created is then treated with an innovative dichroic finishing process.

Artisan know-how and industrial innovation thus come together in the beauty of the material that enhances the magic of the interaction between glass and light.

PRODUCT CODE: 0152030A

FEATURES

- Article Code: **0152030A**
- Colour: **Iridescent**
- Installation: **Suspension**
- Series: **Design Collection, 2021 Artemide Collection**
- design by: **BIG - Bjarke Ingels Group**

DIMENSIONS

- Height: **cm 55**
- Diameter: **cm 40**

Stellar Nebula - M

BIG - Bjarke Ingels Group

LUMINAIRE

- Watt: **18W**
