

28

semi-rigid

An innovative fabrication process that manipulates both the temperature and the direction of air flow into blown glass. The result is a slightly distorted sphere with an interior landscape of satellite shapes, including an opaque milk glass diffuser that houses either a low-voltage xenon or LED lamp.

The semi-rigid suspension system enables pendants to be nestled in close-knit groups or loosely composed in a wider field, allowing each piece to be perceived individually.

Lamping

1.5w LED or 20w xenon

Material

Blown glass, braided metal coaxial cable, electrical components, and brushed nickel or white powder coated canopy.

Patent

US Patent # D687,740
EU Patent # 001695834-001 to 004

LOW VOLTAGE LUMINAIRE
E476196

±Ø165 (6.5")
