

BONALDO

Bonnie, Clyde

Bonnie and Clyde, the stool and bar table, are ideal partners, but they are also available for purchase separately. They have a painted metal frame with a square base featuring rounded corners and are available in five different colours, to better integrate a calmer style or, on the contrary, a livelier one. A perfect item for young and informal settings, Bonnie is a

fixed or revolving stool whose height can be adjusted through a piston that is perfectly integrated within the metal frame. The seat, in plastic material, is robust and resistant. Clyde is a bar table with lacquered wooden top and frame in painted steel. Sober and simple in shape, the two elements are ideal for elegant contract uses or in general aggregation spaces.
