

BONALDO

Idole

Designer: Dondoli and Pocci

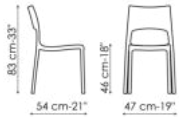

With a sobriety of its use and image, emphasised by the design of the backrest, which is marked by its single opening. Idole is a light and stackable chair, with monocoque body in resistant plastic material. Proposed in five elegant colours, it is able to fit into every environment with style. Idole is a robust and comfortable object for everyday use, thanks also to the use of innovative materials and production techniques and to

its extreme ease of handling. The curvature of the backrest is emphasised by the flared line of the back legs, for an essential but dynamic result: a look that makes it versatile in use, suitable for public or private spaces, perfect for the dining room, the bar area but also for offices or meeting rooms.
