

BONALDO

Tie

An effect of absolute lightness which comes from the slim curved sheet metal feet, which support the top and give a decisively original complement to it. The Tie table is available in different heights and in the versions with a round or hexagonal table top. Thanks to its discreet and essential lines, but embellished by the many finishes in which it is proposed, it lends itself to both home and contract use and can be combined with different types of

furnishings. The top, available in numerous finishes such as wood, lacquered, ceramic and marble, allow Tie to acquire a very different appearance, according to the material chosen. The timeless effect of its design and constructive and aesthetic elements are the perfect expression of Bonaldo's production excellence.
