# To Be

Designer: Gino Carollo

To Be is a collection of accessories made up of chest of drawers, bedside table and highboy that can create an organic design in the sleeping area, especially if combined with the Amlet bed, with which it shares the painted metal base, made in an original trapezoidal shape or in the version with inclined feet. An additional option for personalisation is offered by the plinth base, available in numerous colours of painted metal. The structure

is in matt lacquered wood, available in four different colours (white, anthracite grey, red and dove-grey) to satisfy the most sober as well as the boldest tastes and make possible curious combinations with the colours of the base in painted metal. The handles, in heat-treated ash, are an element of continuity that is common to the whole collection.
