

BONALDO

Tree, Tree light

Designer: Mario Mazzer

Tree is a coat stand that gives personality to the domestic landscape. Perfect for any setting of the home, it can even be positioned outside, thanks to the plastic material it is made of, which is resistant to atmospheric agents. Available in a multitude of finishes, Tree takes its name and design from the unmistakable silhouette of trees, bringing

nature, reinterpreted in a cheerful key, into the home. An unusual and fun design piece, capable of enlivening the environments even when it is free of jackets, overcoats and hats. Expressive intensity and formal identity with an unusual interpretation: Tree light is the lamp version of Tree, made in white: purity, elemental appeal and modernity.
