Pil armchair

Pil armchair is inspired by the object that is itself symbol of softness, the pillow: usually interpreted as an accessory, here the pillow plays the starring role, shaped and adapted to create an armchair that conveys comfort and relaxation. The main components of Pil are the backrest cushion and the seat cushion. The latter features a fold in the middle, created to generate an enveloping effect that physically and visually

emphasises the feeling of softness. The base has legs in painted metal or with elegant finishes. The Pil collection, in addition to the armchair, also includes a series of coordinated seats: Pil, (chair), Pil up (chair with high backrest), Miss Pil (chair with armrests), Miss Pil up (chair with high backrest and armrests) and Pil too (stool).
