

Lazy basketball

LAZY BASKETBALL

Emanuele Magini (2013) ha ideato questa seduta dalla forte presenza iconica che rispecchia pienamente la sua poetica di interazione tra forma e funzione. Lazy Basketball è una seduta con struttura in metallo bianco e schienale in nylon giallo o rosso che termina con un vero canestro da basket. Un ossimoro leggero tra il bisogno di riposo e la voglia di muoversi.

LAZY BASKETBALL

Emanuele Magini (2013) designed this chair, and its strong iconic presence which fully reflects his poetic interplay between form and function. Lazy Basketball is composed of a white metal frame with a yellow, or red, nylon mesh backrest rising up to form a proper basketball hoop. A playful oxymoron between the need to rest and the desire to move.
