SLALOM

Slalom di [Giulio Manzoni \(2016\)](#) è un divano letto di nuova concezione: non si apre ma si compone semplicemente ruotando un elemento di seduta. Configurare il proprio imbotitto ideale diventa facile come disporre le tessere del domino, rapido come l'ispirazione del momento. Una delle due sedute compie un movimento guidato fino a raggiungere la configurazione del letto; il lenzuolo è in dotazione. Rivestimento sfoderabile e lavabile e imbottitura in poliuretano espanso e ovatta poliesteri. Slalom è il divano letto dove iniziare, vivere e concludere le proprie giornate, facilmente.
