

Collection **BRERA**

Brera is a bookcase available in two dimensions. Its peculiarity are the vertical elements that break the linear continuity of the shelves, with both a structural and a containing function.

The position of these vertical elements is fixed and already foreseen on the shelves; it is possible however, during the assembling, to decide whether the elements should be "open" or "closed", giving more personality to the composition.

design: Lievore Altherr Molina

Finishes:

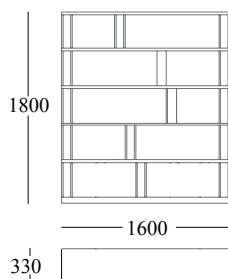

Mat lacquered in our selected colours, wengè, smoked oak, grey oak, natural oak, black walnut, ash stained beige/grey and eucalyptus.

The vertical elements can be in the same finish of the shelves or in a different one.

The units with flap door are mat lacquered in our selected colours.

Dimensions:

W 1600

W 2100
