Design R&D Frigerio

Struttura: in legno imbottita in poliuretano espanso indeformabile rivestito in tessuto protettivo accoppiato.

Base: in ottone acidato o in ottone satinato. L'ottone acidato è ottenuto attraverso un processo manuale pertanto risulta macchiato e disomogeneo ed eventuali irregolarità sono caratteristiche della produzione artigianale.

Rivestimento: in tessuto o pelle, sfoderabile solo nella versione in tessuto.

Profilo: stesso tessuto e colore del rivestimento o su richiesta in contrasto.

Structure: in wood padded with non-deformable polyurethane foam covered in doubled protective fabric.

Base: in acidated brass or in satinized brass. Acidated brass is obtained through a hand-made process therefore it presents spots and irregularities which are to be considered as features of artisan manufacturing.

Cover: in fabric or leather, removable cover only in the fabric version.

Piping: in the same material and colour of the cover, on request in contrast.
