FLOW LEATHER

Designed by Jean Marie Massaud

FLOW LEATHER, FOR EXCLUSIVE SPACES

Flow Chair and Flow Slim's smart, simple and eye-catching design, crosses the boundaries of its democratic cross-cutting nature, changing skin and turning into an even richer, elegant and tailor-made product, to meet the needs of a market aiming at refinement.

This is how Flow Leather was born.

Jean Marie Massaud's chair comes coated in two types of leather. The former, Anilina leather, is offered in seven different colours. It is micro-perforated externally, while inside it is smooth. It is a premium leather, suitable for specific home environments such as dining rooms, living areas, but also for home office and smart working spaces. The second type, Nuvola leather, conceived for business and public venues such as restaurants, hotels, offices. It's a leather micro-perforated internally, while it is smooth on the outside: it is a contemporary, dynamic, high-impact covering, which at times recalls the look of sports car seats and comes in 11 colour tones.

Flow Leather enriches the already large Flow family, with new suggestions and emotions.

VARIANTS AND TYPES

Every armchair can be customised thanks to two different types of leather, to the alternation of smooth leather parts and parts in microperforated leather, and to matching or contrast stitching; in detail:

ANILINA

Luxurious and sophisticated, top-quality upholstery, full grain, pure aniline, with a soft and silky hand; distinctive for its natural tanning, the leather demonstrates all of its material and its innumerable shades. The armchair has micro-perforated leather on the outside and a smooth inside with contrast stitching.

NUVOLA

Rigorous and versatile, smooth grain leather upholstery with mineral tanning, featuring full and intense colours; the armchair has smooth leather on the outside and micro-perforated leather with stitching in same tone on the inside.

FLOW SLIM

Designed by Jean Marie Massaud

Flow Slim, a chair first designed in 2014 as a natural evolution of the Flow family, brings together comfort and aesthetics.

A sinuous armchair with a contemporary flair that blends perfectly with any environment, from the home to the office to public spaces.

Like Flow Chair, Flow Slim can be personalised as to its base – with 8 different options – and shell, which can be enhanced by a padding (leather or in any of the over 200 MDF Italia fabrics), for increased comfort and support due to its shape.

FLOW CHAIR

Designed by Jean Marie Massaud

Flow Chair was first designed in 2009 by Jean-Marie Massaud. Far more than just a chair, this versatile and flexible product, with its constantly evolving design, has developed over time into a family of products that can satisfy any requirement or style.

A curved seat and elegant profile blend in perfect harmony to ensure comfort and ergonomics alike. Flow Chair can be personalised thanks to a vast range of finishings and 8 different bases, blending against a variety of backdrops, from living rooms – both modern and classic in style – to the most sophisticated work environments, without radically changing its original nature.

The Flow Chair shell can be enhanced by leather padding or in any of the over 200 fabrics in the MDF Italia collection, to increase its natural comfort and personality.

FLOW CHAIR IROKO

Designed by Jean Marie Massaud

INDOOR AND OUTDOOR CHAIR

Flow, icon of MDF Italia collection, renews itself and, thanks to the Iroko wooden base, it is also suitable for outdoor spaces. Flow Chair Iroko also meets the various design needs for contract, hospitality, and restaurant business.

The swivel 4-legged base, is made of solid Iroko, a very dense African wood, highly resistant to bad weather, light and extremes of temperature. A characteristic of this wood is its smooth, even surface. All parts made of Iroko are treated using an exclusive varnish, specifically for outdoor use.
