## MINIMA 3.0

Designed by Bruno Fattorini

Minima 3.0 by Metrica - design Bruno Fattorini.

Minima 3.0: three stands for the three key elements that compose the system: shelf, frame, cabinets. Essential and flexible, Minima 3.0 represents the natural makeover of Minima, MDF Italia collection's icon product, special mention at the XVII Compasso D'Oro ADI in 1998. Technology and innovation have enabled this thin aluminium structure, to propose an increasingly minimal yet strong identity. The storage units (with flap opening door, drawers, or open) are simply resting inside the structure and are repositionable quite easily. Uprights and shelves made of matt lacquered white and graphite grey extruded aluminium (100% recyclable). Nominal lengths of cabinets: 30, 60, 90 cm, available in a matt lacquered micro-goffered finish or in a wood variant. Two options: ground-resting (in 8 heights) or hanging (in 4 heights), always with a 33 cm depth.

Minima 3.0 evolves and renews, turning into a more versatile and adaptable furnishing system, capable of joining more functions.

The new Minima 3.0 is divided into 5 types: GROUND-RESTING, HANGING, SKETCH, SIDEBOARD AND ROOM DIVIDER. In addition, for the ground-resting version, two new heights are available - 261.5 e 298 - and new shelves with LED lights integration.

[Find out more about the sketch, sideboard and Room Divider versions.](#)

[WATCH THE VIDEO INTERVIEW WITH THE DESIGNERS](#)

## STRUCTURE

Uprights and shelves made of extruded aluminium and assembled together by using a concealed joining system, capable of giving the structure stability and a special resistance to loads.

Minima 3.0 is entirely made of 100% recyclable aluminium.

### MINIMA GROUND-RESTING

The wall fixing is for always suggested for heights 152 / 188.5 / 225 / 261,5 / 298 cm. The wall end frames are provided with holes for the wall fixing.

To use the system H152, H188.5, H225 (except H261,5 and H298) as a room divider for home and work environments, it is mandatory to join two structures together so as to obtain a ground depth of 66 cm to ensure a proper stability to the system.

## CABINETS

The cabinets can be with open, flap opening doors or drawers. They are simply resting inside the structure and are repositionable quite easily, thus allowing to meet any storage requirements as desired and to choose your own lifestyle by using different colours, woods and shapes.

## RULES FOR COMPOSITIONS WITH INTEGRATED LED

## POWER FOR LED COMPOSITIONS

Scheme to establish the number of electrified frames and maximum number of shelves that can be provided with led

LENGTH OF THE SHELF WITH LED	WATT CONSUMPTION FOR EACH SHELF
60 cm	6,5 W
90 cm	10 W
120 cm	13,5 W

### ELECTRIFIED FRAMES FOR ALL HEIGHTS 100W

IN THE ABOVE EXAMPLE: 20 SHELVES WITH LED CM 90 = 20 X 10 W = 200 W\*

\*maximum power limit for 2 electrified frames

# MINIMA 3.0 GROUND-RESTING

## SHELVES

**E** - STANDARD shelf

**F1** - LEFT end shelf with CONNECTOR

**F2** - RIGHT end shelf with CONNECTOR

**G1** - LEFT end shelf with CONNECTOR AND LIGHT

**G2** - RIGHT end shelf with CONNECTOR AND LIGHT

**H** - end/intermediate shelf with LIGHT

**I** - EXTENSION KIT

## FRAMES

- A1 - electrified frame left - max power 100 W
- A2 - electrified frame right - max power 100 W
- A3 - end frame, not electrified

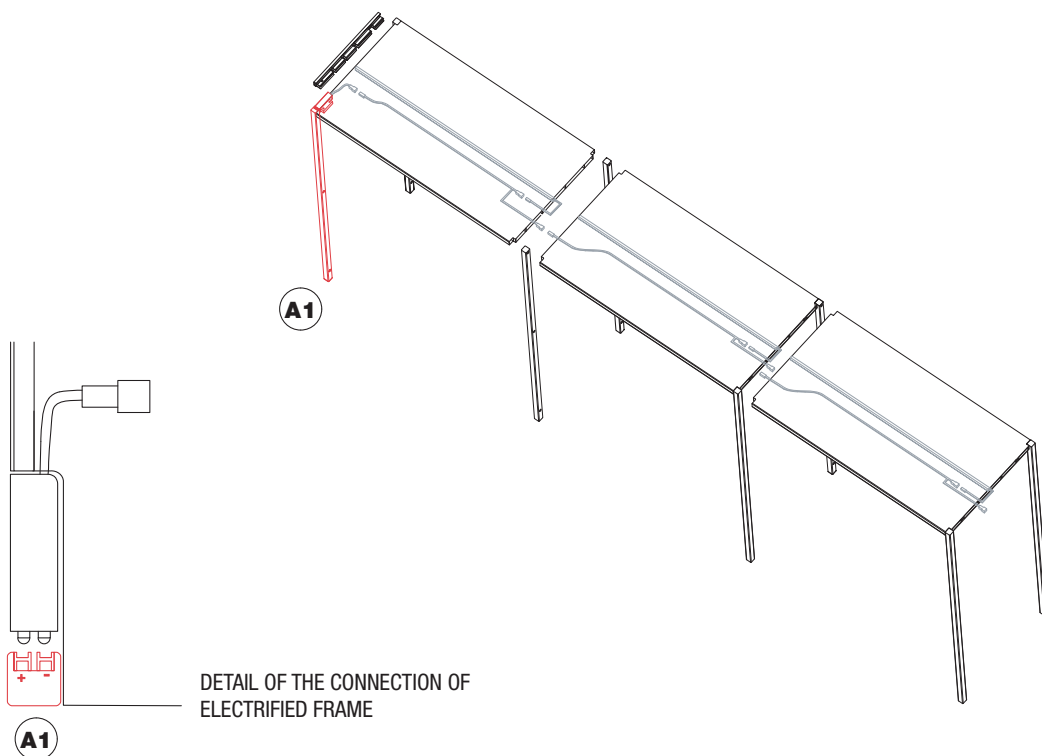

### Important:

- The electrified frame is always in front.
- Left SX or right DX electrified upright to be selected according to the customer needs, or to the position of the electrical outlet.
- Max 2 electrified frames per composition.
- The simultaneous use of the left SX and right DX electrified upright is necessary only if the power indicated in the scheme (100 W per upright) is exceeded.
- Max height of the frame 298 cm.
- US/EU/UK plug to be purchased according to the number of electrified frames.

## D33 SHELVES

- E - standard shelf
- F1 - left end shelf with connector
- F2 - right end shelf with connector
- G1 - left end shelf with connector and light
- G2 - right end shelf with connector and light
- H - end/intermediate shelf with light
- I - extension kit (to be inserted by the customer)

## ELECTRIC SCHEME OF LEDS
