

CROSSING

MAURO LIPPARINI

Crossing is a versatile modular system of panels with which to create wall-mounted shelving. Totally adjustable along the three dimensional axes, it can support up to 400 kg. The program offers a series of modules of different types and sizes, hanging cabinets with flap, leaf or sliding doors, and drawers in a range of sizes. Crossing is available in the Fusion version (with parts in faced or lacquered wood particle board) or in the Listellare version (veneered or laminated poplar blockboard). The compartments contain a special LED lighting system. Finishes: matte lacquer, glossy colours, natural wood, veneer/facing.

TYPE / SYSTEMS

TECHNICAL DESCRIPTION

Our Research Centre has found a material of high stability and undeniable lightness: three crossing layers of solid poplar wood in between two layers of MDF and veneered.

Sides – Bases – Shelves – Wall Shelves th.38mm.

Panel th.38mm. in poplar blockboard with three crossed layers and two surface layers of MDF panel th.38mm., wood veneer or lacquered finish.

Tops

Wood particle board th.19mm in melamine, lacquered finish or wood.

Raster insertion th.14mm.

Series of sides and shelves in MDF, th.14mm., shelves with back panels with or without lights, including aluminium profiled cover, with fasteners for the back and led compartment in satined finish or matt lacquer.

Back panels

Wood particleboard panels in class E1 th.14mm. matt lacquered or wood finish.

Wooden fronts

MisuraEmme®

Melamine faced wood particleboard panel, th. 22mm lacquered finish or wood with horizontal grain.

Fronts profile "0"

Melamine panel th.19mm. with applied tempered glass th.4mm, eco-leather, tecnomarble, wood panel. Aluminium or Gun metal profile.

Hinged and flap door "Narcisse Day"

th.22mm., metal frame in gun metal finish, dedicated handle, tempered glass.

"Bar" flap door

Folding th.50mm., includes led light inserted in upper protruding shelf, with eco-leather mat on the internal base shelf. Optional: mirror on back, n.2 compartment partitions with 1 glass shelf and n. 3 eco-leather mats on the internal base shelf, n.1 eco-leather mat inside the flap front panel.

"Teka" hinged doors

Box-shaped tempered glass th.6mm with visible hinges in brushed steel.

Panels to be inserted for external TV

Wood particleboard panel, class E1 th.25mm, in melamine facing, lacquered finish or wood.

Step-ladder

Tubular welded steel varnished metallic grey, steps in varnished tubular steel covered with non-slip plastic material. Fixture to the rails in plastic material.

Drawer interiors

Wood particleboard panels in class E1 Th.14mm, melamine faced. Drawer bottom: wood particleboard panels in class E1 Th.8mm.

All electrical systems are provided pre-wired in compliance with current laws.

DESIGNER

MAURO LIPPARINI

Mauro Lipparini earned a degree in Architecture in 1980 from Università degli Studi of Florence, where he also worked as a professor. He won the international design contests Young & Designer Milan (1987) and International Du Pont Award Köln (Germany, 1988 and 1989). Lipparini's intense activity in the field of industrial design covers office and home furniture, the textile industry and other products created for many companies in Europe and Japan. In architecture and interior design, Lipparini has concentrated mainly on private and public housing, on showrooms, retail sales outlets and exposition installations. Furthermore, Lipparini also designs and realizes advanced corporate identity image systems that range from graphics to editorial services to production. Lipparini's style is based on the essential shapes and the clear and decisive lines that are characteristic of natural minimalism. His creations are imbued with a joyful spirit and with an elating sense of aesthetic pleasure and creativity. Thanks to his free use of color, organic weave patterns and original visual ideas, Lipparini amplifies the palette of minimalism, conveying the spontaneity and power of this aesthetic style and projecting it towards a new era of great maturity and wellbeing.
