

RIALTO

CR&S MISURAEEMME

MisuraEmme®

A stunning combination of surfaces and fluid lines is at the heart of **Rialto**, whose unique structure – two rounded surfaces paired with a further segment on a right angle and joined together by a geometric base – allows it to fulfil two roles within the domestic setting. It can either be deployed as a stand-alone piece – something unexpected and brilliant – or as a subtle complement to soft furniture, pouffes or even beds. **Rialto** is yet another example of the possibilities when creativity and practicality meet expert manufacturing.
