

ARA FLOOR

Floor LED lamps composed by two elements in extruded aluminium: structure is painted in white, anthracite, champagne and moka, while the rotating illuminated structure can be glossy anodized or painted matt white or anthracite.

The LED uplight source is integrated in the upper part of the structure and it creates a widespread light, while a LED source is integrated in the main structure for a widespread and adjustable light.

The power supply and dimmer are integrated.

LED DTW

LAMPING

Source	LED board + linear LED
Total power	27+45W
Emission	up and side vertical emission, indirect
Switching	double, dimmable dim to warm on board
Tension	120/277V
Color temperature	from 2200K to 3000K
Luminous flux	2390lm + 3426lm
Typ CRI	83
Energy class	A+
Materials	aluminium + PMMA
Notes	orientable side diffuser, up and side emission, anthracite RAL7016, champagne RAL9007
