ELINOR ELN150X150CC

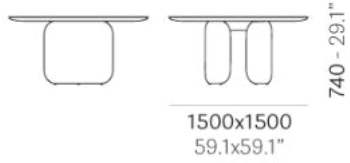

DESIGN:
CLAUDIO BELLINI

The Elinor table collection, with its soft and curving lines, conveys a refined yet contemporary image. The base is formed of two moulded elements of fixed dimensions, made from rigid polyurethane foam and upholstered in genuine leather; they support a square table top in ultra-thin 6mm solid laminate with cable access and a rounded lacquered MDF support beneath it which conceals the steel structure. The two elements of the base are arranged symmetrically, positioned in a way that recalls closed brackets.
