

SERIP

Lotus Round Bloom

REFERENCE CT3402/36

DESCRIPTION

Inspired by an entangled blooming lotus, the design follows the inherent evolutionary disposition of an organism, proposing a spiral arrangement almost like a living sculpture of motion and growing light sources. The egg-shaped glass pieces emit light to involve the entire piece as a single organic silhouette, a Serip feature throughout all lighting designs, revealing interesting glasswork that includes bubbles in each piece - a factor that confers unique characteristics to the light emission. Ideal for living room areas, especially for dining tables.

Finish shown here Metal FO/PB | Glass 10

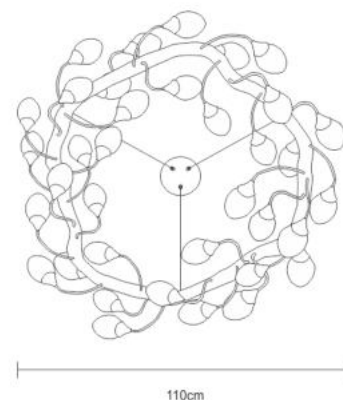

Designed and produced by hand in Portugal.

Serip reserves the right to make changes or improvements at any time it deems useful to guarantee the highest quality standards for its products.

Hand-finished, some variations may occur.

All the glass models are designed by Serip and exclusively handmade produced, establishing a unique and prestigious feature of the glass handwork art. For this reason, there is the possibility of variation in measures, weight, colour and shape represented.

CARE INSTRUCTIONS

Due to the nature of our exquisite hand applied finishes, wipe clean with a soft, dry cloth or static duster must be used to clean the fixture.

Always avoid the use of harsh chemicals or abrasive cleaners as they may cause damage to the fixture's finish.

Cleaning is limited to the outer surfaces, shades or glass. It is important to ensure that no moisture enters the terminal compartment or reaches any live parts.

As our products are subject to technical modifications, we cannot guarantee, that all information is always up to date. Please contact our [technical department](#) with any queries.
