

Delphi

Delphi è una libreria modulare in vetro che, grazie a ripiani di forma trapezoidale di misure diverse, crea un sinuoso effetto “onda”. La versione in vetro fumè ha un fascino raffinato, mentre quella in extrachiaro è particolarmente leggera e diffonde luminosità nell’ambiente.

Delphi is a glass modular bookcase that creates a sinuous “wave” effect through its trapezoidshaped shelves of different sizes. The smoked glass version has a refined charm while the extralight finish looks particularly light and spreads brightness in the room.

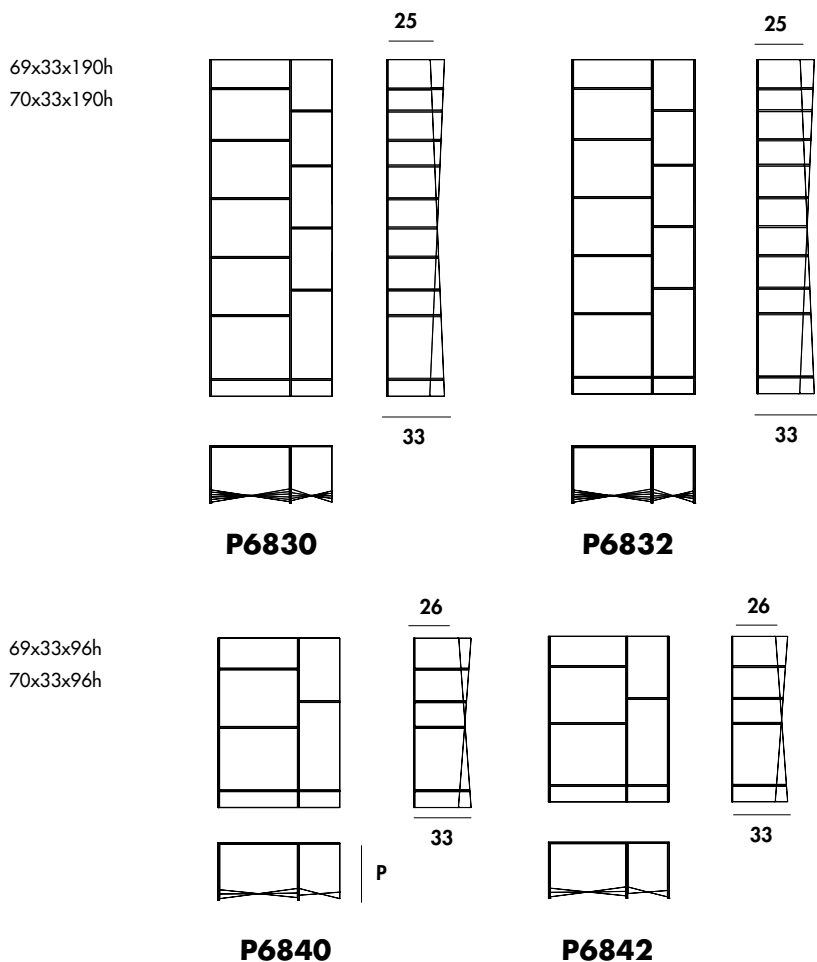

Gallery

Libreria a moduli accostabili in vetro incollato trasparente extrachiaro o fumé.
