Toronto

Design by Mara Panizzo

La lastra di cristallo laccato o ceramica che costituisce il top del tavolo Toronto è sorretta da una basamento in legno. Le gambe dal particolare profilo a “V” offrono alla vista una dinamica sensazione di leggerezza, mantenendo la solidità e la forte presenza dell’insieme.

The ceramic or lacquered glass top of Toronto table is supported by a wooden base. The legs with the special “V” profile give a lively visual sense of lightness, while maintaining the solidity and strong presence of the overall structure.

Gallery
