

Sticks Connectable

Design by Arik Levy

VIBIA

Fusing technology, space, and architecture, Sticks offers a creative toolkit for integrating light elements in an interior. Pure and graphic, the minimalist aluminum rods transform linear light into floating sculpture.

Application:
Lighting Toolkit

Installation type:
Depends on selected installation accessory (see page 5).

Diffuser:
Polycarbonate.

Materials:
Sticks: Aluminum.

Finish:
● 11 Black (NCS S 8500-N)

Driver and Dimming:
Depends on selected installation accessory (see page 5).

Personalization options available

- LED 3000 K.
 - Extra cable length for Wall - Pendant and Pendant - Pendant.
- Min. quantity, upcharge and extra lead time apply.

Installation and assembly:

Please, see the installation manual.

www.vibia.com ► Professional area

and together with the product you'll receive a personalized installation guide with all the details of your composition and guidance for its correct and easy installation.

Light distribution:

General lighting: Lamp for general lighting that equally distributes the light in all directions.

Certificates:

VIBIA

Connecting space application

Custom configurations include ceiling-to-ceiling, wall-to-wall, floor-to-wall, wall-to-ceiling, or suspended from the ceiling into open space. Through their physical form and the light they cast, they create and disrupt architectural planes.

Connectable

The Sticks collection has three sizes: 1.5 m, 2 m, or 3 m, and they can be connected one to each other to a total maximum length of 6.5 meters per electrical connection.

1.5 m

2 m

3 m

Sticks are connected one to each other with a 15 cm length cord.

Each stick rotates on its own axis, allowing light to be directed precisely where needed.
